

CLEARPATH

ClearPath, Inc. | 518 C Street NE | Washington, DC | 20002

Organization: **ClearPath**
Position Title: **Research Intern, Spring 2023**
Location: **Virtual/Washington, DC**

Organization Overview

ClearPath's mission is to develop and advance policies that accelerate breakthrough innovations that reduce emissions in the energy and industrial sectors. To advance that mission, we develop cutting-edge policy and messaging, educate policymakers, and collaborate with academics and industry. Founded in 2014 by entrepreneur Jay Faison, ClearPath engages in the direct education of policymakers within the White House, Congress, Executive Agencies, and regulators like the Nuclear Regulatory Commission (NRC) and Federal Energy Regulatory Commission (FERC).

ClearPath team members believe in small government, free markets, and American entrepreneurship. Those principles form the basis for how the team analyzes proposed clean energy and climate policy. ClearPath supports a full range of deep decarbonization technologies across the power and industrial sectors, including nuclear energy, carbon capture, hydropower, natural gas, geothermal, energy storage, and heavy industry to enable private-sector deployment of critical technologies.

Job Description

The Research Intern will join ClearPath's Policy Team, the group responsible for crafting the organization's positions and recommendations across a diverse set of clean energy technologies that can significantly reduce carbon emissions on a global scale.

ClearPath's Research Intern will have the opportunity to work on a myriad of projects to advance the organization's long-term analysis, strategy, and policy.

This is a paid internship and will result in a significant professional learning experience in Washington, DC public affairs as well as building important career contacts. Work hours are flexible based on availability, but 20-40 hours per week is ideal.

Responsibilities

- Execute research and analysis to identify clean energy trends
- Data analysis of the U.S. power sector to support ongoing projects
- Provide high-level, quick, and in-depth analysis of policy, politics and industry trends
- Respond to a variety of special projects with visibility to members of Congress
- Participate in meetings, synthesize notes and facilitate action items and follow up items.

Capabilities

- Accommodation: Desire to help others
- Self-structure: Preference for independently determining work methods
- Thoroughness: The tendency to pay attention to detail

Values

- Teamwork: Be fun, fast, collaborative, and supportive.
- Dedication: Be here because you want to change the world.
- Ownership: Think and act like an owner.
- Adaptability: Be humble and agile.
- Integrity: Believe individual and organizational credibility is everything.
- Curiosity: Voracious learner eager to engage with the substantive details of our work.

Qualifications

- Pursuing a BS or MS in environmental science, computer science, economics, engineering, law, finance, public policy, or a related field with experience in energy issues
- Interest in clean energy technologies, energy systems, research, and policy
- Preference for candidates with data science and/or GIS skills and the ability to manipulate large datasets.
- Advanced proficiency in Microsoft Excel
- Proficiency in analyzing and interpreting data

Compensation & Benefits

- ClearPath interns are paid bi-weekly.
- Interns are not eligible for benefits.
- Interns will be asked to sign a non-disclosure and confidentiality form upon arrival.

Please send resumes to careers@clearpath.org with the subject line "Intern Posting".
